

## INTEGRAL AUTOMATION

With the implementation of the new facilities in Onda in 2002, completely automated, we have achieved a no-table increase in **quality, speed and repetitiveness** of the process, providing an appreciable reduction in global costs. For this, we follow a rigorous control of quality and traceability that integrates the entire operation of the company.

## LEADERS IN THE SECTOR

**Gardenia Química S.A.**, the company that belongs to an international group with proven experience in the construction products; **SMALTOCHIMICA Srl**, was founded in 1995 with the goal of solving multiple needs that have affected construction industry up to today.

With a philosophy of investigation and constant renovation and service on demand, in a short amount of time, Gardenia Química S.A. has become leader in the national production of additives.

## R&D+i FOR CONTINUOUS IMPROVEMENT

In the constant search to satisfy a more demanding client, our R&D+i department continuously explores new techniques and improvements in our existing products; such as the development of digital injection technology for tile decoration.

Our complex structure, together with the collaboration of the companies of the Smaltochimica group, keeps us ahead of the rest in innovation and vision of future.

The human and technical team of Gardenia Química allows the implementation of an exhaustive control system throughout the entire production process. Our totally computerized manufacturing system guarantees the traceability necessary to assure the follow-up of any possible incident.

This automated improvement not only allows us to offer more speed and affectivity, but also allows the most cutting edge technological institutions of the country to trust and collaborate in our work.

## PERSONALIZED SOLUTIONS

### 1 ELASTIC MEMBRANES

- Transielastic PoW
- Membrane MD
- Elastic-Film
- Arma-Film
- Elastic

### 2 THERMAL

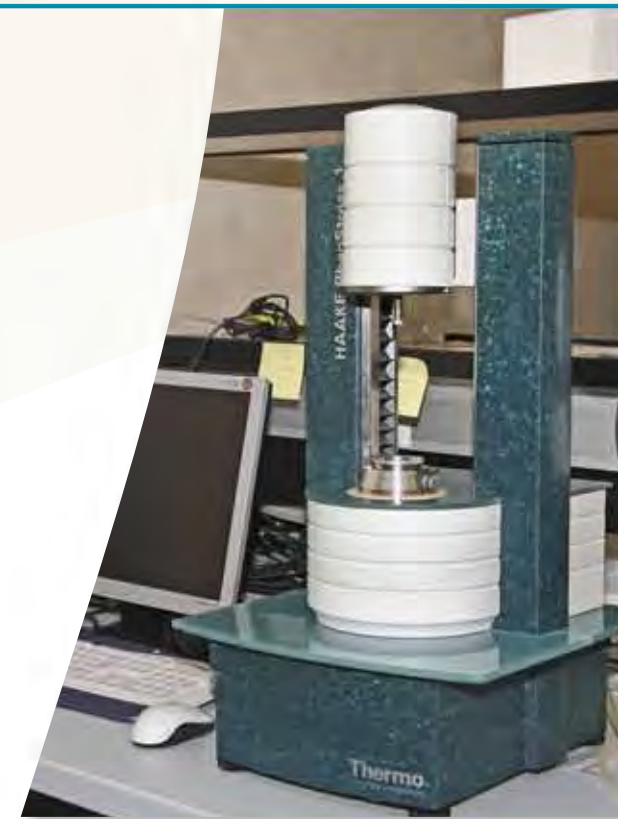

- Thermal Coating
- Aislacustic
- Imperpol Thermal
- Impermorter Thermal

### 3 CONSTANT PAVING

- Selant PoW
- Aliphatic paving PoW
- Acripor W
- Sport-Line
- Pavipoxi 2 comp.
- Pavipol 2 comp.

### 4 TECHNICAL MORTARS

- Waterproofing cement
- Microcement self-levelling
- Impermorter
- Facade mortar
- Structure mortar

### 5 CHIMIQUES FOR CONSTRUCTION

- Cemelastic
- Elasticizing resin
- Reinforcement resin
- Plasticizer
- Hidrofugant
- Arid fixative
- Bridge resin union
- Stop saltpeter
- Selant
- Membrane curing 1/4

### 6 ADDITIVES AND RESINS

- Promoter of adherence PoW
- Catalyst PoW
- Accelerant
- Waterretard
- Fungipol
- Hidrofugant matt paint
- Self-cleaning

### 7 PAINTS AND LININGS

- Ecoplast indoor & outdoor
- Professional
- Pintumate
- Elite & ecolite
- Silk & satin
- Smooth coating
- Matt facades 100% SOIL
- Pintuplastin
- Matt Platinum PoW

### 8 ENAMELS AND VARNISHES

- Enamels
- Varnishes
- Primers
- Monolayers
- Selant
- Thixotropic
- Decoration

### 9 APPLICATION SYSTEMS

- Heat transit
- Medium transit
- Antiskid
- Waterproofing & transit
- Atoxic
- Pools
- Fireproof & intumescent
- Playgrounds
